2 New Features and Improvements

Followings are the list of new features and improvements included in this release compared to last released version 1.12:

- The new firmware version contains new driver set, supports now also IPAM300 Rev 1.5 and the PS16 with new display.

3 Bugs Fixed In This Version

- Bug 101.34 : "file_sys_for_audio\$" too short.
The length of the filename used together with m= was too short, this was increased now

4 Release generating details¹

4.1 CVS release tag:

`abcl_ip_intercom_vb0112_20121212`

4.2 Compile commands:

Inside barix folder type, e.g.:

```
make ab_ip_intercom
```
